Annual Placement Brochure 2025 -26

Directors's Welcome

"The roots of education are bitter, but the fruit is sweet."

– Aristotle

Prof. Dr. Karunesh Kumar Shukla
I/c Director, National Institute of Technology, Uttarakhand

Our students embody a unique blend of intellectual prowess, creativity, and resilience, consistently excelling in diverse fields. They emerge as visionary leaders and innovators, ready to drive transformative changes in the industry.

The Career Counselling and Placement Section at NIT Uttarakhand plays a pivotal role in preparing our students to meet the demands of the global market, offering extensive training, guidance, and industry exposure. Through a robust curriculum and hands-on projects, we ensure our students are industry-ready and capable of making significant contributions from day one. As you explore this brochure, you will discover a pool of talented individuals prepared to bring their ingenuity, dedication, and fresh perspectives to your esteemed organizations. We deeply value our partnerships with industry leaders and are committed to fostering these relationships for mutual growth and innovation.

I invite you to explore the corridors of National Institute of Technology, Uttarakhand, which will give you a glimpse of a perfect future.

Come, join, and give shape to your dreams.
Best Wishes

Prof. I/c & Coordinator C2P Section's Message

Dr. Hariharan Muthusamy
Prof. I/c, C2P Section
NIT Uttarakhand

Choosing the right college for admission to a degree program is quite an arduous task for students and their parents specifically when they are taking admission in an UG or PG degree program. You are taking a huge risk and putting your future career at stake if you end up choosing the wrong college. Hence, students and parents do a lot of homework and research before they consider a Institute as their Alma mater for the next couple of years.

We at NIT Uttarakhand strongly believe that when a student graduates from a Institute, there must be an affirmative change in her/his knowledge, skills, behavior, and attitude in such a manner that she/he is prepared to take the work responsibility at the employer's head. The entire teaching-learning ecosystem at NIT Uttarakhand has been designed with this principle in mind. There is a complete focus on outcome- based education and project-based learning.

Dr. Vikas Kuksal
Coordinator, C2P Section
NIT Uttarakhand

At National Institute of Technology, Uttarakhand, we believe that a student's journey toward a successful and fulfilling career begins the moment they set foot on our campus, where they are nurtured by the appropriate mentorship, clarity of purpose and commitment. As the Coordinator of the Career Counselling and Placement Section, I assure you that our environment fosters not just academic excellence, but holistic development that aligns with individual career aspirations. We lay a strong emphasis on developing the capacity to learn, unlearn and relearn necessary skills for succeeding in a workplace that is changing quickly.

We are committed to shaping our students into lifelong learners and globally competitive professionals, equipped to take on the challenges of tomorrow. We anticipate establishing significant and advantageous cooperation with our renowned recruiting partners by sourcing exceptional and well-prepared students from the institute.

Best wishes

Career Counselling & Placement (C2P) Section

A Gateway to Corporate Success

The Career Counselling & Placement Section at NIT Uttarakhand is dedicated to shaping the leaders of tomorrow. C2P Section is not a bridge to employment; it's a platform that transforms students into industry-ready professionals through personalized development, skill-building workshops, and networking with top recruiters. Our approach is comprehensive, from career counseling to final placements, ensuring that our students are well-prepared for corporate success.
